Maverick Company Announces Western Slope Expansion

GRAND JUNCTION, CO – The Grand Junction Economic Partnership (“GJEP”) is pleased to announce the expansion of Colorado based Maverick Companies, LLC. Maverick began working with GJEP several months ago. GJEP staff provided Maverick with information about property as well as procedures required to begin operations.

Maverick will be located in a facility at 787 Valley Court. “GJEP is very happy to have worked with Maverick and know this expansion is great for our community as we continue to rebound from the recession. We gladly welcome Maverick to our community and know they will certainly contribute to our local economy,” says GJEP President and CEO, Ann Driggers. Maverick Regional Manager, Bud Rice says, “We are excited to be opening a branch in Grand Junction as we know this community has the workforce available to meet our needs.”

Maverick Companies offer oil and gas well stimulation services, coil tubing, thru-tubing services and a solutions group to the energy industry – a target industry for GJEP.

GJEP is a private non-profit economic development organization whose mission is to create quality jobs in Mesa County through business attraction and expansion.
